

Fast Pool Quotes cannot thank Creative One Media enough for not only delivering our project on time and within budget, but for taking the time to establish a relationship built on trust. For Creative One Media, we could not have been a more difficult client to work with. Through clear communication, organization and the ability to execute our vision, Creative One Media was able to turn our doubting Thomas attitude into gratitude.

Fast Pool Quotes in addition to its sister company has worked with numerous developers over the years. The time, money and energy that was spent in the past with other web firms to develop our sites far exceeded that of our experience with Creative One Media. In the past we found our projects never truly reaching completion, our sites were a constant money pit. It wasn't until our accounts were handled by Creative One Media did we ever realize this fact. Additionally, our new relationship with Creative One made us realize that we never truly trusted other developers who have worked for us.

Though the CEO of Creative One Media has from time to time suggested that our company collect additional quotes to reassure ourselves, we have come to realize we trust this developer as if it were an extension within our very own firm.

Signed,

Anthony B Cummings / President
